Value manual labor

Where no oxen are, the crib is clean, but much increase is by the strength of the ox.

Proverbs 14:4 (KJV)

Proverbial tips for practical living.

When you notice one of your family members tracking mud into the house, do you ask them to wipe their feet and leave it at that, or do you get irritated and gripe them out? Have you ever stopped to consider that they may have actually been doing manual labor? A lot of jobs involve manual labor, and for many, it is the income provided by these jobs that allows them to support their families. Those who choose to live wisely must realize the value of manual labor. If they don't practice this truth, they may find their homes clean and their pocketbooks empty.
