By Sheriff Sal Rivera

I do support the right to open carry if the person has passed the course and is licensed to openly carry. Most persons with

a concealed handgun license will receive a license for concealed carry/open carry.

As a gun owner and a believer in the Second Amendment, I don't have a problem with persons who are law-abiding and honest to possess or carry their firearms, as long as they follow the law and the procedures set forth in the Open Carry Law.

I believe that the legislators and the media have a duty to make it clear that not just anyone can open-carry. Also, the legislators need to make it clear that law enforcement shall have the right to investigate any person to see if they are licensed to open-carry and are able to possess the firearm lawfully. There are already laws in place when a person is stopped by law enforcement and they are licensed to carry concealed, they are to present their concealed handgun license if they have their handgun on their person or in the immediate area.
